

## Biographical Data

---

### **Barry Hunt, B.Sc.** **President, Class 1 Inc.** **Cambridge, ON**

---

Barry Hunt is the founder and President of Class 1 Inc., a leading Canadian manufacturer of medical air and medical vacuum systems, headwalls, and other medical gas equipment.

Barry received his Honour's degree in Biological and Biomedical Sciences from the University of Guelph and studied Post-Degree Sciences at the University of Waterloo.

Barry worked for 10 years in the labs at Grand River Hospital, and 7 years in Anaesthesia, Respiratory, and Medical Gas sales, and product and market development with Medigas and Praxair.

Barry has been instrumental in the design, development and implementation of many new mechanical, electrical and architectural products for Health Care Facilities.

For 17 years Barry has assisted hundreds of Mechanical and Electrical Engineering Consultants and Architects in the design of large and small hospitals, clinics and labs.

Barry has long been a member of the Canadian Hospital Engineering Society and is a regular guest speaker at both national and regional conferences. He conducts many training seminars for consultants and professional organizations including the American Society of Plumbing Engineers.

Barry is an associate member of CSA's Technical Steering Committee on Anaesthesia and Respiratory Care as well as a member of the Technical Subcommittee on Medical Gases. Barry has contributed to 10 National CSA Standards, since joining CSA in 1995, including the new Medical Gas Piping Standard due to be published in 2006.
