

Class 1 Inc. Scholarship - 2018 National Education Conference

It is with pleasure we announce IPAC Canada and Class 1 Inc. have collaborated on the development of the Class 1 Scholarship. The scholarship is intended to provide funding for a patient or family member to attend the IPAC Canada annual conference. Official scholarship criteria and application information will be launched in the summer of 2018. At that time, an announcement will be made to patient safety organizations across Canada.

As a pilot project, we requested nominations from Patients for Patient Safety Canada for two patients or family members to attend the IPAC Canada 2018 conference in Banff.

We are pleased to announce that Theresa Malloy-Miller of Delaware, Ontario and Kim Neudorf of Prince Alberta, Saskatchewan have been accepted as the 2018 recipients of the Class 1 Scholarship.

This is a unique opportunity for those whom we serve to experience the education at an IPAC Canada Conference and to provide feedback to us from the patient's perspective.

IPAC Canada thanks Barry Hunt of Class 1 Inc. for his generous support of IPAC Canada.
