CLASS 1 INC. IN TOP 10 FOR WINNING THE PATIENT SAFETY INNOVATIONS AWARD

Class 1 Inc., is in one of the top ten spots for winning the Patient Safety Innovation Award by the Patient Safety Movement. In order to be a part of the ranking you must have an innovation that will help reach a goal of **ZERO** preventable deaths by 2020.

The Patient Safety Innovation Award is focused on identifying the best innovations that are immediately and easily implementable in hospitals across the world. The innovation can be a new product or the novel use of an existing technology or process. The goal is to help the winners bring their innovations to scale so they can be implemented in a hospital setting.

The top three innovations will be selected in the coming weeks. The three finalists will be awarded their prizes at the 5th Annual World Patient Safety, Science & Technology Summit, Friday, February 4th, 2017.

To learn more about the Patient Safety Innovation Award visit the Patient Safety Movement site at: <https://psm2016.startupcompete.co/>
